

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (the “**MOU**”) is entered into by and between the CAMARA Project, established as CAMARA Project a Series of LF Projects, LLC (the “**Project**” or, alternatively, “CAMARA”), and OMA (Open Mobile Alliance) (the “**Organization**”).

WHEREAS, the mission of the Project is to develop open source networking and telecommunications solutions based on open APIs.

WHEREAS, the mission of Organization is to enable secure, scalable IoT and mobile connectivity, uniting industry leaders to drive interoperable, future-ready technologies.

WHEREAS, Project and the Organization desire to collaborate as described in this MOU.

NOW, THEREFORE, the parties agree as follows.

1. Project and the Organization will support collaboration across their respective communities as described in Exhibit A attached hereto. Each party will designate a point of contact for collaboration under this MOU, which can be updated by notice to the other party.
2. Each party, prior to issuing any press release, public announcement, or other publication regarding the collaboration contemplated by this MOU, must obtain the other party’s consent to such press release, public announcement, or other publication. This MOU may be terminated by either party upon notice to the other.
3. Confidential information will not be shared under the terms of this MOU.
4. Exhibit A of this MOU is non-binding expressions of intent. This MOU may be terminated by either party on 30-days notice to the other.

[REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF, the parties have executed this Memorandum of Understanding as of the dates set forth below their signature hereto.

EXHIBIT A

Projects included (but not limited to)

1. Joint work on northbound IoT and M2M APIs:
 - In an effort to avoid duplication of work in the area of IoT/M2M northbound APIs, that means APIs exposed by operators towards their aggregators, marketplaces and customers, CAMARA and OMA would like to foster cooperation pursuant to the terms herein.
 - OMA and OMA members may participate in Sub Projects and Working Groups of the technical CAMARA project pursuant to the Technical Charter of the Project.
 - CAMARA contributors may participate in working groups of OMA upon the invitation and guidelines from OMA's point of contact (as listed below) to CAMARA's point of contact (as listed below).
 - OMA's point of contact, or his designee, may contribute to CAMARA repositories pursuant to the Technical Charter of the Project.
 - The intention of CAMARA and OMA is to work cooperatively on IoT/M2M northbound, user-friendly APIs in the frame of CAMARA in order to enable any operator, if deciding to do so, to integrate these APIs in the GSMA Open Gateway exposure platform using the GSMA Open Gateway standards.
 - Contributions to OMA will be governed by the IPR policy of OMA. Contributions to CAMARA will be governed by the Technical Charter of the Project.
2. Joint marketing, e.g.:
 - Mutually show logo on the websites, subject to compliance with applicable trademark usage guidelines
 - Press releases
 - Customer success stories
 - Webinars
 - Events
